CO CHAIRED BY PRES. MACRON & PM MODI

Paris, Washington DC, 08.02.2025, 21:59 Time

USPA NEWS - France, one of the world leaders in Artificial Intelligence, has been preparing for several weeks to welcome many heads of state and big bosses of TECH and especially AI in the Action A.I SUMMIT 2025 at the Grand Palais (Champs Élysée) and the Élysée Palace (French Presidency) next 10-11 February 2025.

This is one of the first global summits on the meteoric rise of generative artificial intelligence, since the exponential rise of Chat Gpt among others, the fruit of a decade of research by OPENAI, led and founded by Sam Altman. The summit, is paving the way to a global discussion about how to embrace the rise of generative I.A, its governance over the way states are going to make it legitimate and establish a framework when it comes to the array possibilities, reaching out all sectors, yet, to protect the citizens from any control freak, from the A.I bad users...
